Welcome to ICCG10 in Sorbonne Nouvelle University on our Paris-Censier Campus

ICCG-10 aims to provide a forum of discussion between various constructionist approaches such as cognitive construction grammar, embodied construction grammar, fluid construction grammar, radical construction grammar, sign based construction grammar, or other approaches. It also aims to focus on different methodologies and two days of tutorials (July 19th-20th) are proposing a training in data and methodology. You will find all the informations on the Conference Website iccg10@sciencesconf.org. We wish you a wonderful Conference ! Do not hesitate to ask our “helpers” (orange T-shirts) or the Sorbonne Nouvelle staff if you need anything.
